

Seen a saguaro bloom	Been a “leaf peeper”; seen leaves changing color in the fall	Seen a white winged dove visit a saguaro flower or fruit (pollination!)	
Watched a monarch, swallowtail, or other butterfly or moth hatch	Watched bats emerge for an evening feeding session	Had an allergic reaction to mosquito bites	
Smelled creosote bush after a rain	Suffered from seasonal allergies	Played with maple “helicopters” (seeds)	
Made (or eaten) flour from mesquite beans	Seen a desert tortoise	Gone on a wildflower hike	
Caught fireflies	Eaten food made from prickly pear fruits	Had a hummingbird visit a feeder in their yard
