

OBSERVE SEASONAL CHANGES
in **PLANTS AND ANIMALS**
to improve our understanding of
climate change impacts.

Why participate in Nature's Notebook?

Discover changes in nature—you will be surprised at what you see when you watch carefully!

Join a dedicated community of observers who are helping to make a difference.

Learn how your data are being used to conserve plants and animals, manage invasive species, create allergy alerts, manage wildfire, and more.

Join the Nature's Notebook community:

- 1 Set up your observation site
- 2 Select plants and/or animals to track
- 3 Submit your observations regularly throughout the year

Get the *Nature's Notebook* app or sign up at
