Animal Phenophase Datasheet

Directions: Fill in the date in the top row and circle the appropriate letter in the column below.

y (phenophase is occurring);

n (phenophase is not occurring);

? (not certain if the phenophase is occurring).

Do not circle anything if you did not check for the phenophase. In the adjacent blank, write in the appropriate measure of intensity or abundance for this phenophase (see left-hand column for details).

Species: _____

Site: _____

Year: _____

Observer: _____

Individuals on land

One or more individuals are seen active or at rest on land, including individuals found under cover of a rock, log, or burrow.

For abundance, enter the number of individual animals observed in this phenophase.

Individuals in water

One or more individuals are seen active or at rest in water, including individuals basking on a log or rock in the water.

For abundance, enter the number of individual animals observed in this phenophase.

Feeding

One or more individuals are seen feeding. If possible, record the name of the species or substance being eaten or describe it in the comments field.

For abundance, enter the number of individual animals observed in this phenophase.

Nesting

One or more adult females are seen nesting. This includes actual laying of eggs or excavating the nest cavity. It does not include turtles that are likely engaged only in basking.

For abundance, enter the number of individual animals observed in this phenophase.

Young individuals

One or more recently hatched or young individuals are seen, living or dead, including those individuals found dead on a road.

For abundance, enter the number of individual animals observed in this phenophase.

Dead individuals

One or more dead individuals are seen, including those found on roads.

For abundance, enter the number of individual animals observed in this phenophase.

Please see the species profile page for complete information about the phenophases for each species.
