

Frogs and Toads

Amphibians

Animal Phenophase Datasheet

Directions: Fill in the date in the top row and circle the appropriate letter in the column below.

y (phenophase is occurring);

n (phenophase is not occurring);

? (not certain if the phenophase is occurring).

Do not circle anything if you did not check for the phenophase. In the adjacent blank, write in the appropriate measure of intensity or abundance for this phenophase (see left-hand column for details).

Species: _____

Site: _____

Year: _____

Observer: _____

Adults on land

One or more adults are seen at rest or active on land.

For abundance, enter the number of individual animals observed in this phenophase.

Adults in water

One or more adults are seen at rest or active in water.

For abundance, enter the number of individual animals observed in this phenophase.

Adults feeding

One or more adults are seen feeding. If possible, record the name of the species or substance being eaten or describe it in the comments field.

For abundance, enter the number of individual animals observed in this phenophase.

Vocalizing

One or more individuals are heard vocalizing.

Intensity of frog or toad calls at a site. Single calls (S): There is space between calls and individuals can be counted. Overlapping calls (O): Calls of individuals can be distinguished but there is some overlapping of calls. Full chorus (F): Calls are constant and overlapping.

Mating

A female is seen grasped and held by a male.

For abundance, enter the number of individual animals observed in this phenophase.

Dead adults

One or more dead adults are seen, including those found on roads.

For abundance, enter the number of individual animals observed in this phenophase.

Please see the species profile page for complete information about the phenophases for each species.
